23	372	394	398	422	403	349	424

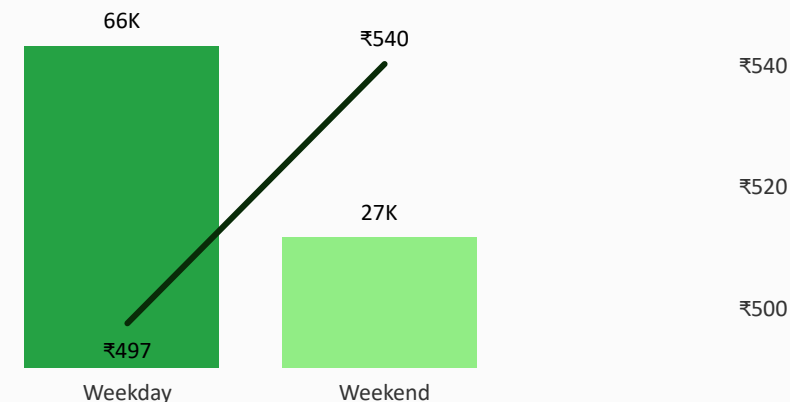

- Demand consistently peaks at **6 PM across all weekdays**, while early morning hours (1–4 AM) show the lowest activity.
- Evening commute hours dominate ride demand throughout the week.

Revenue Distribution by Fare Bucket

- Mid-range fare buckets (₹400–₹1K) contribute the highest overall revenue.
- Higher fare buckets generate better revenue per ride but lower booking volume.

Weekday vs Weekend Ride Analysis

- Weekends earn ₹540 per ride versus ₹497 on weekdays — an 8.6% premium despite lower total booking volume

Lost Bookings

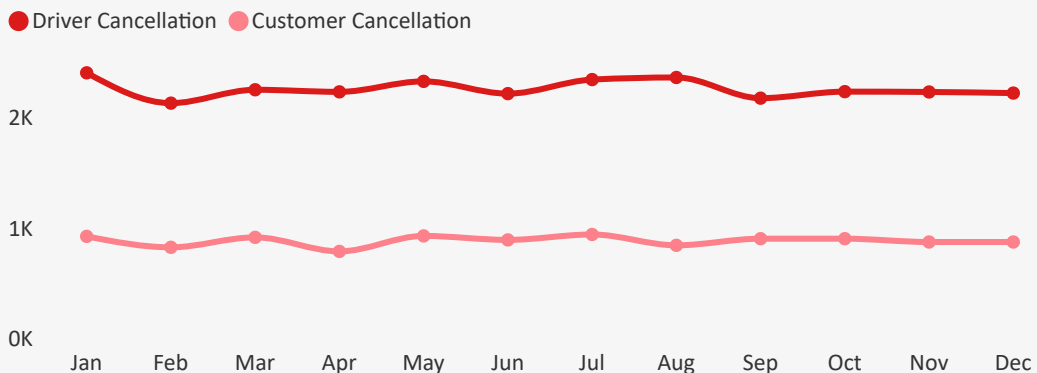

Booking Status Distribution

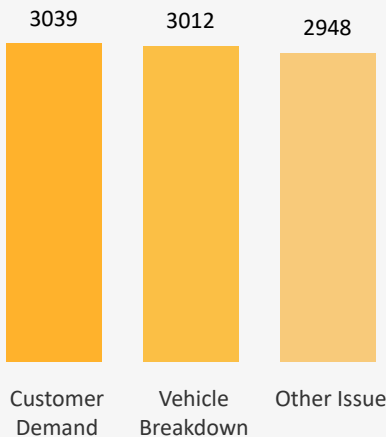

- Only **62% of bookings complete**. Driver cancellations alone account for 18% — the single largest controllable failure category.
- Driver-side inefficiencies are a major contributor to lost revenue.

Monthly Cancellation Trend

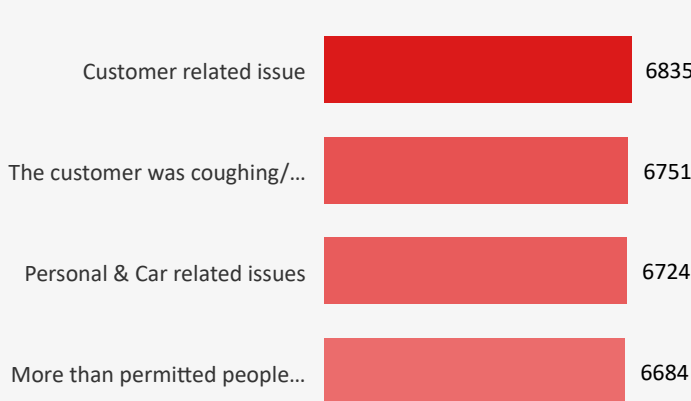

- Driver cancellations consistently remained more than double customer cancellations across all months.
- The gap between the two lines remains constant throughout the year — no month shows improvement in the driver-customer cancellation ratio.
